

Installation Instructions for 41401, 41402, 41403 Gas Filler Paint Protector

Installation Procedures:

Step 1: Remove the 2 lower screws (or torx) on each side as shown in picture.

Step 2: Loosen the 2 top screws (or torx) on each side at the top. (Do not have to remove.)

Step 3: Lift assembly and locate position for mounting.

Step 4: Position protector as shown, lining up the pre-punched holes under the assembly to where the 2 lower screws (or torx) were removed.

Step 5: Re-install 2 lower screws (or torx) and tighten the 2 top screws.

Step 6: Finished!!

This is folded and tucked under the gas door when not in use.
