

# Installation Instructions for 41401, 41402, 41403 Gas Filler Paint Protector

## Installation Procedures:

**Step 1:** Remove the 2 lower screws (or torx) on each side as shown in picture.

**Step 2:** Loosen the 2 top screws (or torx) on each side at the top. (Do not have to remove.)

**Step 3:** Lift assembly and locate position for mounting.

**Step 4:** Position protector as shown, lining up the pre-punched holes under the assembly to where the 2 lower screws (or torx) were removed.

**Step 5:** Re-install 2 lower screws (or torx) and tighten the 2 top screws.

**Step 6:** Finished!!

This is folded and tucked under the gas door when not in use.
