Installation Instructions for 42488, 42489, 44494, 44495

1984-96 Leather Console Lid Cover

Step 1: Remove center console door by removing the screws that secure the console lid to the hinge and unplugging the console light assembly.

Step 2: Lay console lid face down and remove the screws on the plastic backing plate. (84-89 DO NOT REMOVE the 2 screws that hold the light.) Remove backing plate. (Note direction of console lid spring and button for re-installation.)

Step 3: Cut the double-sided tape in lengths to fit locations shown in picture. Be sure to clean area thoroughly before applying. You can substitute the double-sided tape with upholstery glue or similar for a firmer hold.

Step 4: Install console cushion on console door. Pull flaps firmly securing them to the double-sided tape. (The double-sided tape is intended to temporarily hold the flaps until backing plate is re-installed.) Re-install spring and button and check for operation.

Step 5: Once cushion is aligned and in position re-install backing plate.

Step 6: Finished!! Re-install console door back to car.
