

Important... A/B Measurements

CHECKING FOR HOOD CLEARANCE

To ensure adequate hood clearance, check the height of your stock manifold and compare the "A" and "B" measurements against those of the **Eckler's** manifold prior to purchase. The heights of all **Eckler's** manifolds are listed under "Installation Notes" for each model in the intake manifold section of this catalog.

Please Note: To figure carburetor pad height, add dimensions "A" + "B" and divide by 2.

For example, Performer manifold #2101:

(A) 3.5" + (B) 4.6" \div 2 = 4.05"
