

Vinyl Transfer Decal Instructions

Step 1: If decals are all on one sheet, cut them out to separate strips as necessary.

Step 2: Carefully pull the clear backing from decal. **Decal should stay on the white paper.** (If necessary warm the decal with a hair dryer to ease release of clear backing.)

Step 3: Clean surface where decal is being applied.

- Place decal on surface as shown.

Step 4: Gently pull back paper making sure decal is sticking to the surface.

- Use a credit card or similar, and rub front surface.

Step 5: Done!
